Dog is the companion of the Fighter Kyrani Dart, a young woman who grew up with him and took him with her when she began selling her sword for a living. She's his best friend and both have put their lives at risk for each other. Kyrani has a magic sword and some healing herbs that she carries in her pouchbelt.

Dog has been trained to fight, darting in and nipping at his foes. He's learned a lot about adventuring, especially about how monsters smell and fight – especially undead and wercreatures, both of whom are all too common in the wilds of Geronfrey. Over the years, he and Badger have become quite a fighting team, and he's been teaching Badger how to swim after a few unfortunate incidents. Dog gets along with all the Animals, although for some reason Cat keeps wanting to teach him to sing. Dog resisted for a long time, but once he finally gave in he discovered that he was a natural!

Since Dog enjoys the companionship of Humans, he knows a lot about their customs and habits and the way they live. Kyrani has been teaching him how to behave himself around Humans, ever since the group started hobnobbing with the wealthy. However, all too often Dog is left to look through a window, so he's also started teaching himself to understand Humans by watching their mouths.

Collar of Protection +3: Gives the wearer +3 protection, as a ring of protection. (Note that Dog's saving throws have not been adjusted above – be sure to add the +3 when rolling)
